- 3) Roadway System Performance (PM 3) Target Setting
*The Texas Department of Transportation (TxDOT) is required to set statewide targets for roadway system performance in four areas by the end of May. As a first step, TxDOT asked the Texas A&M Transportation Institute (TTI) to develop suggested targets for each MPO. TxDOT has now requested that each MPO review TTI's suggested system performance targets and develop preliminary targets. TxDOT will then compile all MPO preliminary targets, confer with the TxDOT Executive Director, and then submit the targets to the Federal Highway Administration (FHWA) by May 27, 2018. Our MPO will then have 180 days from May 27 to finalize our target which will then be transmitted to FHWA. Although there are four areas in which targets will need to be set, our MPO only needs to review one target (Level of Travel Time Reliability for Non-Interstates) since we do not have an interstate nor is our area population 1,000,000 or greater. **Action Required.** (See attachments.)*
- 4) Regional Mobility Authority Recommendation
*The Policy Board has asked the TAC to provide a recommendation to the Policy Board on whether the MPO should support the creation of a Regional Mobility Authority for Brazos County. Dr. Dennis Christiansen, P.E. and Doug Bramwell, P.E. RLPS with Jones/Carter will provide an overview of RMAs and the requirements for establishing an RMA in Brazos County. **Action Requested.** (See attachments.)*
